

4. Total Lead (Pb)

With Reference To CPSC-CH-E1002-08.3, acid digestion, followed by AAS/ICP analysis. – for non-metal substrate

	Result [mg/kg] (001)	Requirement [mg/kg]
Total Lead (Pb)	ND	<90

- Remark:
1. ppm = parts per million = mg/kg
 2. ND = Not detected
 3. < = Less than
 4. Detected limited = 10 mg/kg

5. Chlorinated Phenols

With reference to §64 LFGB BLV B82.02-8, analysis was performed by Gas Chromatographic-Mass Spectrometric (GC-MS).

	Result [mg/kg] (001)	Requirement [mg/kg]
PCP (pentachlorophenol)	ND	<0.05 (for Baby); <0.5 (for Adult)
TeCP (tetrachlorophenol)	ND	<0.05 (for Baby); <0.5 (for Adult)
TriCP (trichlorophenol)	ND	<5

- Remark:
1. ppm = parts per million = mg/kg
 2. ND = Not detected
 3. < = Less than
 4. Detected limited = 0.05 mg/kg
